Solvent Extraction Plant Equipments
Installation, Commissioning, Turnkey Projects For Soya Lecithin
Consultancy For Solvent Extraction Plants & Preparatory.

SPECIALIST

ALL TYPES OF MACHINES FOR SOLVENT EXTRACTION PLANT & OTHER MATERIAL HANDLING EQUIPMENTS

Expanders

Specialist in manufacturing expanders of all capacities from 100 to 1500 TPD Also with arrangement of built in oil extraction for high oil content seeds like mustard, sunflower & cottonseed. High density collets for maximum D.O.C. bag weight.

Dryer Cooler

Specialist in manufacturing of drier coolers for preparatory material as well as D.O.C. Suitable for all types of oil seeds and cakes. Capacity :- 100 TPD to 1500 TPD

Cracker Machine

Flaking Machine

Both Hydraulic & Non Hydraulic Type
Crackers :- 100 TPD To 500 TPD.
Flakers :- 100 TPD To 400 TPD.
(Rolls are procured from renowned manufacturers)

Hydraulic Bag Stacker/Truck Loaders

Latest Modified Version. Both in single & double telescopic Cylinders. Capacity : 40 tons / Hr. Length up to 12 Mtrs. Height up to 6 Mtrs. Portable & easy to operate.

Redler Conveyor

Heavy & Robust construction. Capacity from 100 TPD to 1500 TPD. Bottom collapsible Design with UHMW bottom for less friction, long life & less power

Screw Conveyor and Elevators

Heavy & robust - 100 TPD to 1500 TPD capacity. Screw conveyor - in s.s. & also with steam jackets. Elevators with M.S. or Nylon Buckets. Length up to 20 mtrs. Height up to 20 mtrs.

Rotary Valves & Cyclones

Rotary valves, leak proof for solvent extraction Plant and others for preparatory. All with adjustable UHMW blades supplied with geared motors & VFD. Cyclones are specially designed to trap the heavy particles and discharge non polluted air.

Steam Radiators

We are specialized in manufacturing crimped & Corrugated Finned type Heat Exchangers. Tested upto 20kg/cm². Made from seamless/ERW Pipes in M.S. or S.S. It is a modular designed one so that it can be dismantled periodically for cleaning, Repairs or even replacements. The heating surface area can be from 33 M² to 330 M² or even More to get maximum heat exchange capacities. We also manufacture shell & tube type & Floating head type heat exchanger from 15M² 600M²

Belt Conveyors

We are specialized in manufacturing belt conveyors right from 10 TPH to 150 TPH. Both straight & Inclined, Flat and Conical to handle all types of materials like Oil seeds, De Oiled Cake, Cotton seed, Coal etc. We also supply coal handling system, on turnkey basis right from feeding to crusher and screener to bunker on turn key basis.

Oil Tin Truck Loaders

This is our Latest innovation to minimize Man power & Maximize the Speed for Loading Oil tins, Jars & Crates in the trucks.

We are proud to have

Solvent division

Esteemed Clients

Steel division

Dedicated To Quality, Reliability And Service.
